Coimbatore, Tamil Nadu

SOFT SKILLS

- Teamwork
- Time Management
- Leadership
- Effective Communication
- Critical Thinking

TECH SKILLS

- Java
- C
- C++
- HTML
- CSS
- Data Structure

LANGUAGES

- Tamil
- English
- Hindi (Basic)

PROFILE

A dedicated Computer Science student with a strong interest in backend development, IoT, and web technologies.

EDUCATION

Bachelor of Computer Science   2023 -- 2026
KPR College of Arts Science and Research
PERCENTAGE : 85%

Higher Secondary Education   2023
Kids Park Matriculation Higher Secondary School
PERCENTAGE: 85.3%

PROJECTS

ATM Application   DURATION: 2.5 MONTHS

- Developed an ATM application, handling core banking functionalities such as account verification, balance inquiry, cash withdrawal, deposit transactions, and mini statements with efficient performance.

Technologies Used: Java

Book My Show   DURATION: 2 MONTHS

- Designed and implemented the backend architecture for an online ticket booking system. Managed user authentication, seat selection, payment processing, and booking confirmation workflows. Ensured scalability and efficiency to handle multiple concurrent users.

Technologies Used: Java

ACHIEVEMENTS & HACKATHONS

- Won the Best Paper Presentation Award at Sankara College and secured prizes in various paper presentation competitions.
- Developed an IoT-based Smart Parking System, optimizing parking management using real-time sensors and automation.
- I completed an internship in Front-end development at LITZ Tech, where I enhanced my skills in web technologies.
- Achieved a World Record in Valli Kummi, participating alongside 18,000 people in a historic cultural event.
